

Experience in

Uganda

- — Transport
- — Ports & Inland Waterways
- — Water - Environment - Energy
- — Rural Development
- — Institutional Development

Egis Bceom International has been working continuously in Uganda since 2000 delivering projects in the Transport and Water Sectors. Our permanent presence in the country for the past six years also means that we are able to stay in close contact with our clients including Government departments and local offices of the funding agencies such as the European Development Fund, the World Bank and the African Development Bank.

Egis Bceom International employs expatriate and Ugandan engineers and has a policy of knowledge transfer to local staff. Staff are well trained and equipped with modern facilities including state of the art computer software and hardware. A senior experienced Egis Bceom International professional is assigned to co-ordinate back-stopping and head office support related to technical and contractual matters throughout the project period.
